SEDIMENT

Meet the Creators

The Willis siblings have a long history of creating together in their childhood living room. Sediment will be their first collaborative stage performance.

REID WILLIS has built his career on a unique combination of experimental sounds with classical compositions. In addition to his six officially-released albums, Willis has worked on musical projects for clients such as Microsoft, Mazda, LensCrafters, Special Olympics and more. Listen to his music here:

<https://reidwillis.bandcamp.com/album/sediment>

WHITNEY WILLIS HEBERT has studied, performed, and created dance in Acadiana for the better part of 30 years. Credits include creating THIRST - an evening length contemporary dance work - for the ACA's Residency @ the Center program; co-creating, directing, and choreographing the annual A Date with Dance series for LA Dance Company; choreographing and performing for Mother Of - Piano Reworks, Live at the Marigny Opera House in New Orleans, LA; and directing Lafayette's first iteration of the renowned Ten Tiny Dances® series. View her work here:
